

Eclipse™

TTC WIRE-GUIDED BALLOON DILATOR

Delivering precise balloon expansion

A high-performance balloon that dilates gradually with minimal “waisting” can save valuable procedure time and decrease inventory costs. That’s the idea behind Cook’s Eclipse Wire-Guided esophageal, pyloric, duodenal and colonic balloon dilators. At its full inflation, the radial force generated by the Eclipse TTC delivers precise expansion, allowing you to achieve the desired endpoint efficiently with one balloon.

Eclipse™

TTC WIRE-GUIDED BALLOON DILATOR

Used to dilate strictures of the gastrointestinal tract, including strictures of the esophagus, pylorus, duodenum and colon.

- With one high-performance balloon, perform three dilations with minimal “waisting”
- Graduated pressure information conveniently located on kink-resistant Memory® catheter
- Tapered, flexible atraumatic tip for navigation through tight strictures

ORDER NUMBER	GPN	INFLATED BALLOON DIAMETER	BALLOON LENGTH	COLOR CONNECTION	
PYLORIC / COLONIC					
ECL-6X5.5	G25636	6 MM /18 FR	5.5 CM	PURPLE	
ECL-8X5.5	G25628	8 MM /24 FR	5.5 CM	PURPLE
