

Transfer with ease.

Guardia™ Access Nano

CURVED EMBRYO TRANSFER CATHETER

CookARTlab.com

Atraumatic

The reduced outer diameter of the bulb tip enables atraumatic catheter passage through the cervix.

Flexible

The soft transfer catheter provides the flexibility to navigate different patient anatomies.

Guardia™ Access Nano

Cook Medical now offers another choice for embryo transfer: the Guardia Access Nano. This precurved embryo transfer catheter has been optimized to ease passage through the cervix.

Cook's Guardia Access Nano is the result of refining a best-selling product to suit the comfort and needs of patients. It has Cook's traditional distal curve and bulb tip, which has a reduced outer diameter to address the challenges of smaller anatomy. The Nano's transfer catheter also has an internal support cannula to enhance its flexibility during embryo placement. The transfer catheter is available in two lengths, 24 cm and 30 cm.

Order Number	Reference Part Number	Guide Catheter Fr	Guide Catheter Length cm	Transfer Catheter Fr	Transfer Catheter Length cm
G24216	K-JETS-551910-S	5.5	17.3	2.8	24
G24215	K-JETS-551910-L	5.5	17.3	2.8	30

Guardia™ Obturator

Use Cook's Guardia obturator to assist an approved embryo transfer catheter in gaining uterine access to place in vitro fertilized (IVF) embryos into the uterine cavity.

Order Number	Reference Part Number	OD inch	Length cm
